UNIVERSITY OF TORONTO ARCHIVES

Accession No.                      Provenance Heading

B92-0024                              RAPPAPORT, Aron M.

This finding aid is a box list for Dr. Rappaport's files.

/Box (file) No.	Subject heading	Date(s)
<b>Series I: Personal files</b>		
/001	Curriculum vitae and biographical information Correspondence Poetry Appointments Canadian citizenship Education, University of Toronto Appointments Retirement Honours and awards	-1992   1927-1948 1953 1949-1953 1953- 1983 1961-1990
<b>Series II: Addresses</b>		
	Addresses	n.d.-1962
/002	Addresses	1972-1985
<b>Series III: Publications</b>		
	Publications	1930-1952
/003	Publications	1953-1979
/004	Publications Publications by others	1980-1984

**Series IV: Graphic material**

/001P - /009P Includes photoprints, illustrations, film and glass lantern slides and exhibit display panels documenting research on the liver. Boxes 001P and 003P contain mainly images from his book The Scarring of the Liver Acini. Many of the images were used in other publications, as well as for seminars, exhibits and lectures.

Bulk dates ca. 1950s-1980s.

Estimate: 250 photoprints and illustrations  
700 slides

Note: Slides have been placed in sleeves and the information from the original containers has been transcribed as precisely as possible. Headings in square brackets were supplied by the archivist.

**Series V: Sound and moving image material**

/001M - /012M This series is mainly films made by Rappaport relating to the liver. Some titles include: Pathologic Circulation in the Mammalian Liver, The Effects of Mouse Hepatitis Virus on the Microcirculation of the Liver (2 copies on video), Experimental Hepatic Veno-Occlusive Disease, and Normal Circulation of the Mammalian Liver. All films are 16mm format, color and usually silent. Duration of films are from 6 to 30 minutes.

ca. 1960s-1980s 10 films  
2 videos

Note: Viewing may be restricted.
