B2014-0032

Zarb, George A.

Biographical sketch

George Albert Zarb was born in Valetta, Malta on 28 October 1938. He completed high school at the Lyceum in 1954 and subsequently received his BChD magna cum laude from the Royal University of Malta in 1960. He was awarded a Fulbright Scholarship and went to the University of Michigan from which he received his MS in 1962 and his DDS in 1963. He then undertook further studies in graduate prosthodontics at Ohio State University, earning a Diploma in Prosthodontics and a second MS in 1966. This was followed by a Fellowship in the Royal College of Dental Surgeons of Canada in 1969.

From 1963 to 1965, Professor Zarb was in private practice in Toronto and taught part-time in the Faculty of Dentistry at the University of Toronto. In 1966 he was appointed assistant professor at the U of T in the Department of Prosthodontics, while maintaining a part-time special practice that extended throughout his career. In 1968 he was promoted to associate professor and, from 1971 to his retirement in 2004, he was Head of the Discipline of Prosthodontics. He was elevated to full professor in 1972, and from 1974 was a member of the School of Graduate Studies. From 1997 to 2001, he also held the position of associate dean, Clinical Studies. During his years at the University of Toronto, Professor Zarb held some sixty formal positions on campus; he sat on many administrative committees and task forces, and chaired numerous search committees.

Professor Zarb has also played an active and internationally recognized role in national and international prosthodontic organizations. He was a co-founder (and president-elect) in 1973 the Association of Prosthodontists of Canada. He sat on the executive committees of four other bodies, each of which he also served as president: the Canadian Academy of Prosthodontics (1970-1975), the Association of Prosthodontists (1971-1976), the International College of Prosthodontists (1988-1997), and the Academy of Prosthodontists (1989-1998).

He was instrumental in the establishment of prosthodontics as a recognized specialty in Ontario and at a conference in Toronto in 1982, considered the most important of the 11 he organized, he introduced osseointegration to North America. Professor Zarb's major contributions to the advancement of the discipline has made him one of the most respected scholars in the field of prosthodontics. He has written or edited 15 textbooks, contributed chapters to sixteen others, and authored or co-authored over 150 other scientific publications. He has served as an editorial board member of 7 dental journals and is editor-in-chief of the *International Journal of Prosthodontics*.

Professor Zarb's prodigious output and many personal connections worldwide has made him a much sought-after speaker at conferences, where he has often delivered the keynote address. Over the thirty-year period between 1973 and his retirement in 2004 he held over 80 visiting professorships, in 20 countries other than Canada, including a dozen American states. He has hardly slowed down in retirement, continuing to lecture widely and to do some teaching and organizing biennial Workshops for Young Prosthodontic Educators from the global academic community. This initiative is the result of his

B2014-0032

Zarb, George A.

Biographical sketch

forging a partnership between the editorial team in the IJP and the Karlsruhe Academy in Karlsruhe Germany. Since their inception in 2006, the Workshops have also been held in Asia – Beijing, Seoul and Kyoto.

Many honours have been bestowed on Professor Zarb in recognition of his work. He has received honorary degrees from the University of Gothenburg in Sweden; Dalhousie University, the University of Toronto, and the University of Montreal in Canada; the University of Malta; and the University of Turin. He has also received numerous honorary fellowships and awards from universities and professional organizations, including the Academy of General Dentistry, Harvard University, the Canadian Dental Association (twice), the Greater New York Academy of Prosthodontics (where he is the only recipient of its three awards), the Royal College of Dental Surgeons of England, the American Prosthodontic Society, and the Royal College of Surgeons in Ireland. In 1993 he received the International Association for Dental Research Award in Prosthodontics and Implant Surgery.

Professor Zarb lives in Toronto, but spends the coldest winter months in his beloved Malta with his wife Janet. Dentistry has surrounded him most of his life and is reflected in other members of his extended family. As Professor Zarb himself pointed out, “There are 4 Zarb dentists [including himself] and all are Prosthodontists - quite confusing!”: his brother, Francis (DDS, U of T, 1966), his son; George (DDS, SUNY; MSc, Chapel Hill, NC); his nephew John (DDS, University of Detroit Mercy; MSc, U of T).

Scope and content

Textual, graphic, publications, sound recordings, moving images, electronic records, 1969-2012, 5.14 m

Personal records of George Zarb, Professor Emeritus of and former head of Prosthodontics in the Faculty of Dentistry at the University of Toronto, who introduced dental implantology to North America and who is recognized internationally for his contributions to his field. The records include personal and professional correspondence; files on many of the numerous honours bestowed on him; administrative files; teaching files, course material and lecture notes with accompanying slides, along with slide presentations from student projects and theses; files of correspondence and related material pertaining to professional activities, including selected conferences and editorial work; and drafts of chapters of books, articles, and addresses, with accompanying photographs and slides, and some born-digital material.

399 photoprints	
73 photonegatives	
7 x-rays	
33 acetate overheads	
3,479 slides	
8 VHS video cassette tapes	
14 audiotapes	
4 gigabytes of born-digital records	

Access: Restricted

Letters of reference [B2014-0032/001(29)] are closed until 1 January 2035. The names of persons that appear on slides may not be cited. All other files are open.

Zarb, George A.

Series 1: Biographical and personal

Textual, graphic, 1970-2012, 0.11 m.

This series contains copies of Professor Zarb's curriculum vitae; personal and some professional correspondence (unseparated); and files on honours awarded to him. The latter files potentially include correspondence, notes, programmes, and drafts of addresses. The series concludes with files on vacations, informal addresses at gatherings of friends and family, and letters of reference for 2005.

The arrangement in this series is generally chronological by activity.

Zarb, George A.

Series 3: Teaching files and lecture notes

Textual, graphic, moving images, 1968-2005 [bulk 1985-2005], 1.12 m.

This series contains course outlines, lecture notes and supporting material, principally slides, that document Professor Zarb's teaching over a period of some twenty years (1985-2005). Nearly all of the files relate to his teaching on the University of Toronto campus, the principal exception being a series of workshops he took part in at McMaster University in the mid-1990s.

The series begins with a selection of teaching and research slides on particular subjects – the beginnings of implant research, cleft palates, faces and smiles (jaw conditions, deformities, implants, surgery), implant techniques, and single tooth – assembled in the 1970s and the 1980s but used by Professor Zarb over many years. These slides have no associated paper documentation. They are followed by course material filed by the number and/or name of the course, arranged chronologically. Included are examples of projects with patients (profusely illustrated with slides) carried out by three graduate students in prosthodontics between 1989 and 1991 and, following them, courses taught between 1991 and 2005. Associated with these courses are files (usually including slides) on mini-residencies, each of which consisted a packaged course of six sessions over six weekends, once a month. A major off-campus teaching project was a Prosthodontic Research Symposium held at McMaster University in 1993 with a series of workshops on research methods in prosthodontics continuing into 1994.

Included are a number of VHS video cassette tapes of a review of laboratory protocols and clinical case studies that Professor Zarb prepared between 1985 and 1991. The series ends with a file on theses supervised and a draft of an MSc thesis that Professor Zarb supervised.

Zarb, George A.

Series 4: Professional organizations and activities

Textual, publications, 1972-2011, 0.76 m.

This series encompasses a number of professional organizations of which Professor Zarb was a member and for most of which he occupied an administrative position at one time or another. Of particular significance are the files relating to the American College of Prosthodontists, the 1995 research symposium of which he helped organize; the Academy of Prosthodontics (executive, 1989 to 1998) for which, as president, he oversaw the organization of its 1999 meeting in Calgary; the International College of Prosthodontics (executive 1988-1997); and the *International Journal of Prosthodontics* of which he has been the editor since 2003. He was instrumental in organizing its 1995 research symposium at its 1995 annual meeting in Chicago. There are also a number of files on Professor Zarb's association with Nobel Biocare AB and NobelPharma.

The files contain correspondence, notes, notices, memoranda, minutes of meetings, legal documents, programmes, and drafts of reports. The arrangement in this series is alphabetical by name of the organization. Some of the files contain drafts of addresses that are normally found in Series 7: Addresses.

At the end of the series are a number of files that document how widely Professor Zarb's advice as a consultant was sought. They include appraisals of various papers, research projects (including those at King Saud University, Riyadh, Saudi Arabia) and academic positions; and expert evidence on accident claims and in court cases.

Zarb, George A.

Series 5: Research

Textual, publications, 1984-2011, 0.08 m.

This small series contains correspondence, notes, articles, newsletters, ad reports assembled by Professor Zarb in three areas of research interest: dental implants, old age and osteoporosis, and temporomandibular disorders. The series concludes with two reports on osteoporosis.

Accession/box(file)	Description	Date(s)
B2014-0032/016 (09) – (10)	Dental implants. Notes, articles	1984-2011
B2014-0032/016(11)	Old age and osteoporosis. Articles	1996-1998
B2014-0032/016(12)	Temporomandibular disorders. Notes, correspondence, articles	1991-1995

Zarb, George A.

Series 6: Manuscripts and publications

Textual, graphic, publications, 1978-2012, 1.50 m.

This series documents most, but not all, of the books, chapters of books, conference proceedings, and papers that Professor Zarb saw published over a very productive career and in retirement, along with a number of manuscripts that were never published.

The arrangement, except for 'Unpublished manuscripts', is that followed by Professor Zarb in his curriculum vitae. The section are: 'Unpublished manuscripts', 'Textbooks written and edited' (fifteen, but the early ones are present only in part), 'Conference proceedings edited', 'Publications, including abstracts' (by far the largest section with over 150 entries), 'Chapters in textbooks', and 'Book reviews'. There is only one title listed under 'Chapters in textbooks' as entries from that section of Professor Zarb's curriculum vitae that appear first under 'Textbooks written and edited' remain in this section. There is also only one book review.

In his curriculum vitae, Professor Zarb numbered the titles in each section; this numbering system has been retained here, with any titles not present having been deleted. Papers with no numbers attached to them do not appear in his curriculum vitae (to 2004); also, no numbers were used after he retired.

The 'unpublished manuscripts' section is composed primarily of files relating to a major publishing project, 'Prosthodontic Aspects of Osseointegration', that Professor Zarb reports "was regrettably abandoned after a few years of considerable effort. It was overtaken by the speed of development in the field and gradual decisions from the folks involved, to approach the topic in separate and diverse ways. My personal efforts culminated in other books and papers."

Material that was published potentially contains a wide range of material in the files: background articles and reports; drafts of manuscripts (with some offprints) and covering correspondence, along with figures and illustrations (some photonegatives and prints, and many slides); reviews by appraisers; contracts (for books) and reviews. The photonegatives, prints, and slides are filed with the pertinent manuscripts.

	6.2 Textbooks Written and Edited	
B2014-0032/023(09)	Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Correspondence, publishing agreement, notes, outlines, proof comments on chapters	2007-2012
B2014-0032/023 (10) – (12)	John Hobkirk and George Zarb, 'Chapter 1: The edentulous state,' in Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Correspondence, drafts, illustrations (8 photoprints, 69 slides)	2010
B2014-0032/023 (13) – (17)	Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Chapters 2 and 3: correspondence, drafts, illustrations (Chapter 2: 3 photoprints, 79 slides)	2010
B2014-0032/023 (18) – (19)	Leslie P. Laing and George Zarb, 'Chapter 4: 'Sequelae caused by wearing complete dentures,' in Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Draft, illustrations (6 photoprints, 40 slides)	2010
B2014-0032/024 (01) – (05)	George Zarb and John A. Hobkirk, 'Chapter 5: History taking, treatment planning, and improving denture-bearing areas for edentulous patients,' in Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Notes, drafts, illustrations (including 134 slides)	2010
B2014-0032/024 (06) – (07)	George Zarb, Steven E. Eckert, Rhonda F. Jacob, and John P. Zarb, 'Chapter 6: Additional treatment planning options for both edentulous and potentially edentulous patients,' in Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Notes, drafts, 54 slides. See also Chapter 5.	2010
B2014-0032/024(08)	Zarb GA, Hobkirk J, Eckert S, Jacob R, eds. <i>Prosthodontic Treatment for Edentulous Patients : Complete Dentures and Implant-supported prostheses</i> . 13th ed. St. Louis, Missouri: Elsevier Mosby, 2013. Chapter 7: drafts, illustrations	[201-]

Zarb, George A.

Series 7: Addresses

Textual, graphic, publications, sound recordings, moving images, electronic records, 1978-2012, 1.46 m.

This series consists of addresses and lectures to various groups under the auspices of the associations listed here, as well as numerous dental societies in Ontario sponsored by the Royal College of Dental Surgeons of Ontario. Professor Zarb's curriculum vitae lists the main addresses, generally described as "extramural lectures and presentations", from 1992 to 2004, the year of his retirement, but the list here is rather broader, beginning in 1978 and ending in 2012.

Included is correspondence, notes, drafts of addresses, background articles and other material, photoprints, and slides. Some addresses are recorded on audio-tapes and a few others in video (VHS) format, along with a few entries in electronic format. Professor Zarb made printouts from CDs of many of his talks that were profusely illustrated with slides. The compiler of this finding aid continued the process (there were dozens of CDs) but retained a sampling in electronic format which have been listed.

Accession/Box(File)	Description	Date(s)
B2014-0032/028(25)	Address on the occasion of Kenneth Kerr being given a life membership in the Association of Prosthodontists of Canada	[197-?]
B2014-0032/028(26)	Address to International Symposium on Biological Occlusion (1 st : Tokyo, Japan), 27-28 June 1981	1981

Zarb, George A.

Series 8: Born-digital materials

Born-digital records, 2001-2007, 4 gigabytes on 8 compact discs

Files in this series consist primarily of lecture slides, photographs, texts of addresses given by Professor Zarb, and drafts of his monographs and book chapters. Of note, Disc 007 contains over 450 digital photographs of his September 2006 lecture in Turin, Italy along with the accompanying reception.

Processing note: 12 discs were transferred to the archives, but only 8 were readable. The 8 discs in this collection have been forensically imaged for preservation and access purposes. Access copies of the files contained on the discs were created. There may be some overlap and duplication of files with the textual records in the other series.

Access: Use of the original discs is restricted. Please email the Digital Records Archivists to arrange to view access copies of the files on the computer terminal in the reading room.
