**Scope and content:**

Files consist of correspondence and purchase records related to Joseph Brabant's collection activities and Lewis Carroll scholarship.

**Notes:**

Files are arranged alphabetically by correspondent's name; the materials from each correspondent are arranged chronologically. Prolific correspondents appear in separate folders. "Enclosures" refer to items referred to as being originally sent with the correspondence but no longer contained within the files. Where additional matter (e.g. newspaper clippings, lists) is extant within the correspondence, it is designated as "attached." Wherever possible, call numbers from the Brabant Collection are provided for receipts of Brabant's acquisitions. In some cases, books or periodicals referred to are available elsewhere in the University of Toronto system, but only Brabant items are listed in the finding aid. Cross references are occasionally provided between correspondence sets where references might otherwise be unclear (e.g. if a colleague is referred to by first name only).

Then comes a brief interlude in which the stage lights are dimmed and Dodgson reads his letters to Mrs. Mayhew about his suggestions of taking photographs of her daughter without clothes on. The juxtaposition is incongruous. The audience, I think, were embarrassed.... However, I am sure it will make no difference to Carroll and his reputation.</p> <p>"Just before I went to see the play, I had a frantic 'phone call from LC's great niece (Philip's sister). She had read the media articles and was alarmed. She wanted to know if we could get the play stopped. She thought it would defame Carroll's character.
