

**BIOGRAPHICAL SKETCH**

**Llewellyn E. Jones (1910-1999)**

L.E. "Ted" Jones was born in Montreal in 1910. After the First World War, his family settled in Transcona, a suburb of Winnipeg. He completed a B.Sc. in 1931 at the University of Manitoba and graduated as a gold medallist in civil engineering. The following year he moved to Toronto to undertake graduate work in open channel hydraulics at the University of Toronto. After completing his MASc and PhD degrees, he joined the department of applied physics and subsequently the department of mechanical engineering in 1944.

Professor Jones was associated with the Faculty of Applied Science and Engineering for approximately seventy years. Over his career, he instructed students in fluid mechanics and hydraulic engineering, metrology and numerical analysis. His research was primarily focused on open channel hydraulics – the science of water flow in channels like rivers and canals. Jones also undertook consulting work in the area of hydraulics. In addition to his research and teaching activities, he also served as an unofficial ombudsman to students and was famous for his lectures on the use of the slide rule as well as his annual address on dress and deportment, which was delivered before the graduation ball.

Professor Jones retired from the University in 1972. He was appointed Professor Emeritus in 1975. Prior to his retirement, and as a consequence of his deep interest in the Faculty's history, he was appointed Engineering Archivist by Professor James Ham, then Dean, a role he continued to hold until his death.

Professor Jones was a man of many interests. Starting from his early years at the University until after his retirement, he sang with the Hart House Glee Club. It was through his singing, while working on a University production of a Gilbert and Sullivan opera that he met his wife Dorothy, whom he married in 1938. He also was actively involved in his church, St. George's on-the-Hill in Etobicoke, wrote poetry, was a calligrapher who hand-lettered citations and awards bestowed by the University and an avid photographer who recorded notable events. L.E. Jones maintained his connection to the University and pursued many of these activities until his death in 1999.

## SCOPE AND CONTENT

1898-1998

10.37 m

multi-media

This accession contains both personal and professional records created and collected by Dr. L.E. Jones, professor of engineering. Although a small percentage of this fonds documents his personal life, the vast majority of material was created after his retirement in 1972, which he created in his capacity as Faculty Archivist and Professor Emeritus. The paucity of information from the earlier years can be attributed to the loss of many of his records during the Sir Sandford Fleming building fire in 1977.

The records have been arranged into series to reflect either the type of record or the activity involved. Records documenting Jones' personal life are filed first, followed by papers documenting both the personal, professional and academic projects and activities that he worked on during his life. There are also special series dedicated to the archival information and records that he collected as Engineering Archivist. Photographs have been placed at the end in Series XI.

Some of the records that are included in this fonds include Professor Jones personal documents such as: his student workbooks and thesis, his letters to the editor, correspondence, and activities with his church and the Hart House Glee Club. Most of the records pertain to his professional activities and consist of documents such as: correspondence, publications, lectures and student marks. There are also a significant number of files that document his involvement in Faculty activities such as the Iron Ring Ceremony, the Hall of Distinction and the Centennial and Sesquicentennial celebrations. The work that he undertook for the Faculty providing calligraphy for the inscriptions on the awards and medals that were granted by the Faculty of Applied Science and Engineering are also documented in many of the files. Finally, two series are dedicated to the articles that he collected documenting the history of the Faculty as well as the archival items that he acquired as Engineering Archivist.

Despite the fact that most of the records in this fonds document Professor Jones' personal and professional activities after his retirement, they provide an interesting glimpse into his life while assuming the role of Engineering Archivist and Professor Emeritus. As the Engineering Archivist, Jones collected a variety of rich and interesting documents pertaining to some of the early pioneers within the Faculty of Applied Science and Engineering. In addition to collecting material, Jones also documented the Faculty by photographing notable individuals and events. This fonds would therefore be useful to those individuals interested in examining the life of Professor Jones, as well as researchers who wish to delve into the history of the Faculty of Applied Science and Engineering.

Series XI**

**Llewellyn E. Jones Personal Records**

**Photographs**

**3.54 m      189- - 1998**

Contemporary photographs: 1955 - 1998

Jones was an avid participant at many university activities and events especially those related specifically to the Faculty of Applied Science and Engineering. Photographs in this series reflect his role as Engineering Archivist as well as his interest in amateur photography. Contained in this series are photographs both taken by Jones and collected by him to document events such as convocations, memorials, award ceremonies, dinners, graduation balls, dignitary visits, dedications, building openings, retirements and open houses. There are also images that specifically document Jones attending many of the numerous events as well as other professional activities.

The most well documented events include: the Engineering Centenary celebrations in 1973; the mounting of the lintel from the Old S.P.S. building and the installation of Becca's H in front of the Galbraith building; the fire, rebuilding and reopening of the Sir Sandford Fleming building 1977-82; the excavation of the site of the old Observatory, 1979; the installation of John Black Aird as Chancellor of the University; the design, construction and installation of the Sundial, 1993.

The collection is arranged as follows:

Box /001P (01) - (35) Photographs documenting Jones at various functions and engaged in various professional activities.

Box /001P (36) - (51) Photographs, mainly professional, collected by Jones documenting  
/002P (01) - (18) University and Faculty events and people.  
/009P (02) and (02a)

Box /002P (19) -(42) Photographs collected for Faculty of Applied Science publications.

Box /003P - /007P 3x5 colour photos of university events taken by Jones arranged : these are in the process of rearrangement and are inaccessible. Please consult Special Media archivist.

Box /008P 3x5 colour photos taken by Jones and arranged into photo albums  
/009P (01)

Llewellyn E. Jones Personal Records

Historical photographs 189- - 1966

Jones, in his capacity of as Engineering Archivist, collected numerous photographs documenting the history of the Faculty of Applied Science and Engineering and its predecessor the School of Practical Science. Included in this collection are numerous portraits of faculty, images of staff, and of student groups such as graduating classes and clubs, as well as student activities. There are photos of the Ajax Campus as well as images of the Survey Camp at Gull Lake. Finally, there are few photographs of University buildings.

The collection is arranged as follows:

Portraits                    /011P (01) - (20)  
                                  /009P (03) - (04)

Students Groups        /011P (21) - (41)  
                                  /009P (05) - (17)  
                                  /010P (01) - (06)  
                                  /013P (01) - (04)

Student Activities     /011P (42) - (45)

Buildings                /012P (01)-(09)

Gull Lake Survey Camp /012P (10)-(14)

Ajax Campus            /012P (15)-(19)

For detailed list see Appendix 1.

**Series XII Artifacts**

1900 - 1980 0.55 m

Various artifacts collected by Jones documenting the Faculty of Applied Science and Engineering and its graduates. Includes:

- /001 Art S.P.S. Pennant and Cloth Badge  
/002 Art 3 Iron Rings  
American Society of Engineering, Lamme Medal Alexander was awarded Graham Christie (S.P.S. 19--)  
Brass Door Plates, for C.R. Young, Charles H. Mitchell, H.H. Madill, W.R. Lang  
Athletic medals belong to W.R. Worthington (BASc 1904)  
Chemical Engineering, One Newton in Toronto Medal  
Lead Block Engraving designed by Jones for Commemorative Coaster of the Sir Sandford Fleming Building Fire  
B2001-0005 Art Faculty of Applied Science Pennant, 2T6

**Seriex XIII Sound and Moving Images**

**Sound Recordings:** 17 cassette tapes

Lectures by Jones

- /001S Urban Flooding Seminar 1975-03-20  
/002S Final Lecture to Group H 1975-04-11  
/003S Final Lecture and exam 1975-04-16  
/004S Grad Ball Lecture on Dress and Decorum 1975-03-10  
/005S Farewell Party for Jones, short talk by Jones 1975-06-18  
/006S Grad Ball Lecture 1979-11-05  
/007S Grad Ball Lecture 1980-02-26  
/008S Poetry recited / sung by Jones (side B) ca. 1979

Faculty Events

Graduation Balls

- /009S 1977-03-19  
/010S 1978-03-17  
/011S 1981  
/012S Engineering Society Centennial 1985-03-23

Memorials and Commemorations

- /008S Farewell to Dean Etkin (side A) 1979-04-25  
/013S Dedication of the HMS Ajax naval ship 198-  
/014S Dedication of the Stewart Observatory and presentation to family  
1984-09-12
